

## Information Technology Textboxes & Clipart

**Objective:** Use textboxes and clipart to create educational posters

**Introduction:** You are an intern with ABC Inc., a company that designs and markets educational materials for elementary schools. Because of your outstanding technology skills, you have been asked to design several posters for kindergarten and first grade students. Teachers will teach new words and improve student vocabulary by using these posters.

**Instructions:**

A sample poster is given below.

1. Set the document paper size to 11 x 17. Set the orientation to landscape.
2. Set the zoom width of your document window to 35%. It will be easier to see the entire page by reducing the size of your view.
3. Create posters for any 4 words below:

Dog	Lake	Cat
Fall	Salad	Hill
Tree	Hat	Cake
